電子郵箱 Email: uav@aacm.gov.mo

Application Type	
<input type="checkbox"/> General application (Note 1)	<input type="checkbox"/> Special application (Note 2)
Purpose / Use of Drone :	

Applicant Information		
Name of applicant or name of Organization and person in charge :	Contact number :	Email address:
Identification Document Type:	Identification Document Number	
Home or Organization Address:		

Drone Operator Information	
Operator name:	Mobile phone number

UAV system information			
Brand:	Model:	Serial number:	Has the drone been modified Yes <input type="checkbox"/> No <input type="checkbox"/>
Weight: <input type="checkbox"/> <= 250 grams	<input type="checkbox"/> >250grams and <=7kgs	<input type="checkbox"/> >7kgs	Has the drone been labelled Yes <input type="checkbox"/> No <input type="checkbox"/>

(Note 1) The general application is an application for flying drone in accordance with the Air Navigation Regulations Macao Article 67 and with the current Chart of the unmanned aircraft activities.

(Note 2) The special application is an application for flying drone that exceeds the requirements of Article 67 of Air Navigation Regulations Macao. (e.g. Flying in no-fly zone or at night, etc.) The special application may affect the aviation or public safety. Civil Aviation Authority Macao must review the need to use drones, decide whether to approve special applications and require applicants to comply with additional conditions .

Operation Plan (For general applications only)				
Zone (Note 3)	Flying height (AGL)	Operating time	Operating Date	Flying location (where the drone flies over)
A	1 5 0 M	Daylight only (Time between sunrise and sunset)		
B	5 0 M			
C	2 5 0 M			

Operation Plan (For special applications only)	
Submitted document	
<input type="checkbox"/>	Flight plan (including operating range, flight altitude, operating date, operating time, etc.)
<input type="checkbox"/>	Emergency procedures for drone operation (Note 4)
<input type="checkbox"/>	Copy of Drone operator qualification, relevant license or training certificate
<input type="checkbox"/>	Entrusted documents from event organizers or entities
<input type="checkbox"/>	Exemption from Relevant entity (e.g. for drone flying over protected buildings)
<input type="checkbox"/>	Other supportive document

Personal Information Collection Statement

1. The personal data provided for this application will only be used for purposes directly related to this application.
2. For the purposes of processing applications and for fulfilling statutory obligations, relevant information may be transferred to police authorities and other authorized entities directly related to the activity.

Applicant's signature
(signature can be input by typing)

Date

(Note 3) The English letters in this column are different designated zones in the current Chart of the unmanned aircraft activities. The drone operating location should be filled in the corresponding column according to those designated zones.

(Note 4) The emergency procedures for drone operations shall describe all events that may cause the drone operation to fail or terminate, such as a radio control links failure and other flight termination procedures in the event of any serious system failure shall be considered. Emergency procedures vary for different models.

OFFICIAL USE

Things to follow

- Drone operation must comply with all the provisions of Article 67 of the Air Navigation Regulations Macao, however the restrictions on flight altitude stated in paragraph 3b of Article 67 can be waived in case of obtaining permission from this authority and drone should fly according to the current Chart of the unmanned aircraft activities where you can find it on AACM website. << Air Navigation Regulations Macao>> Article 67 Please see: <https://www.aacm.gov.mo/images/download1/2019102415034640.pdf>
- Drones must fly during daylight.
- Drones are prohibited from flying over any borders and ports in the Macao SAR.
- When flying, the drone needs to maintain a distance of 50 meters from the light rail train lines and its facilities.
- Drones are prohibited from flying over crowd gathering locations and large event venues
- Drones are prohibited from flying over all Macau Cross-sea Bridges.
- If necessary, the Civil Aviation Authority Macao may restrict or prohibit any authorized drone operations in accordance with the provisions of Article 66 of the Air Navigation Regulations Macao. Before launching the drone, you should visit AACM website <http://www.aacm.gov.mo> to read the no-fly information.
- When using drones to move over all real estates assessed as cultural relic buildings and their surrounding areas, the drones must maintain a proper distance from these buildings, and the operators should also perform flight operations under safe conditions. For a list of real estate assessed as cultural relics, please refer to the website of the Macao Cultural Affairs Bureau's website: <http://www.culturalheritage.mo/en/list/9>
- Drones are prohibited from flying over the The Ruins of Saint Paul's.
- During thunderstorm warnings, heavy rain warnings, and strong monsoon signals come into effect, or weather conditions fail to meet the drone flying specifications, operators must not fly drones.
- Relevant approval does not exempt the necessary procedures, relevant regulations and third party liability insurance required by other entities or Authorities.
- Pursuant to Article 16 of Decree No. 52/94 / M of November 7, 1994, this Authority has the right to impose a fine on anyone who conducts activities in areas subject to aviation rights and does not comply with the conditions of this permit.
