**SUBJECT: Conversion or Validation of Professional Pilot License**

**(Commercial Pilot License & Airline Transport Pilot License)**

## 1. General

- 1.1 In accordance with paragraph 19 of the Air Navigation Regulation of Macao (ANRM), a person shall not act as a member of the flight crew of a Macao registered aircraft unless he/she is the holder of an appropriate license granted or rendered valid by Civil Aviation Authority - Macao, China (AACM).
- 1.2 Before a Macao professional pilot license or a Certificate of Validation is issued, AACM needs to be satisfied that the applicant is a fit person to hold a professional pilot license or a Certificate of Validation, and is qualified by reason of his knowledge, experience, competence, skill, physical and mental fitness to act in the capacity to which the professional pilot license relates. For these purposes, the applicant shall provide such information and evidence as is required and shall also undergo such examinations and tests as prescribed in the ANRM and respective Aeronautical Circulars (ACs).
- 1.3 A Macao professional pilot license will not be issued unless it contains an aircraft rating for an aircraft type registered in Macao. No exemption from the Aircraft Rating check ride will be granted.
- 1.4 A Certificate of Validation may be issued if the holder of a valid ICAO professional pilot license is carrying out an overseas delivery flight or short-term operations on a Macao registered aircraft.
- 1.5 The maximum validity of the Certificate of Validation is 3 months and, in any case, it shall not extend beyond the period of validity of the license issued by an ICAO Contracting State.
- 1.6 AACM will contact the issuing ICAO Contracting State to confirm the validity of the license to be converted or validated. AACM will not consider issuing a Macao pilot license or Certificate of Validation unless AACM receives the confirmation from the issuing ICAO Contracting State.

Note: Some ICAO Contracting State may require payment of a fee or consent from the applicant for releasing his/her personal information to AACM, etc. It is the applicant's responsibility to meet such requirements for the issuing ICAO Contracting State to send the license confirmation to AACM.
