B No. 03/09
Date: 01 Mar 09

SUBJECT: Aviation Medical Examination

1. In accordance with paragraph 4 (1) (d) of the Fourteenth Schedule of the Air Navigation Regulation of Macao as amended by AC/PEL/004R00, the medical examination reports submitted to the AACM by medical examiners shall be evaluated by the medical assessor.
2. In order to expedite the application process, the AACM issues Medical Certificate based on the examination concluded by the medical examiner. The Medical Certificate holder will be informed of the comments of medical assessor after his evaluation if the condition of the Medical Certificate is to be revised. The AACM will contact the certificate holder within ten working days after the examination concluded by medical examiner when necessary.
3. In order to determine that no condition exists which may have a downgrading effect upon the applicant's medical fitness during the validity period of the Medical Certificate, the medical examiner or medical assessor may prescribe examination(s) for the certificate holder when necessary. The holder shall undergo such examination(s) before the specified date. Unless otherwise stated, the issued medical certificate will be suspended unless the holder has undergone the prescribed examination and which is pronounced satisfactory by the AME before the specified date.
